Dear Commissioner James and Commissioner Rodriguez:

I am the Executive Director of the Hollywood Media District BID, and as such our Board is currently looking to upgrade our existing six (6) medians (Melrose - Lexington) in coordination with the two new median islands (Ferris Webhe) is working on currently on Highland (DeLongpre to Sunset). Recently I read an article about an award that Public Works awarded to UCLA Extension students within the school of Landscape Architecture to design a demonstration project for existing medians along San Vicente Boulevard. I would like to partner with Public Works in doing something similar for our medians along Highland which are in desperate need a makeover with California drought tolerant plants along with improved irrigation. It seems like the perfect opportunity to partner with the City on this type of project as Ferris new medians are in the process of being built.

Let me know if you are interested in partnering with the Media District BID.

Thank you for your consideration,

Lisa Schechter  
Executive Director  
Hollywood Media District BID
